

David Cameron backs the Prince's Trust and congratulates the partnership team in their efforts to provide employment opportunities.

The progression partnership engage with 'The Prince's Trust'

The Prince's Trust is an approachable and diverse organization which values and respects people's different backgrounds, characteristics, ideas and beliefs.

It is responsive to the needs of young people, staff, volunteers, delivery partners and all stakeholders.

ASSL worked with the Princes Trust to identify good local candidates, and provided training and mentoring to get them 'job ready'.

Land Securities asked Deploy to support their Tier1 Contractor, Erith, by being the employment engagement provider.

About the project

Kingsgate house is being demolished by Erith to be replaced by 2 new buildings. The public realm will be extended to include an attractive courtyard bordered by office space, new shops & restaurants and 100 prime residential apartments. Demolition started in spring 2012, as part of the larger Victoria Circle redevelopment.

Project challenges

Screening, Interviewing and mentoring the young unskilled operatives and ensure the 'job ready' training provided by ASSL is the grounding needed to ensure they sustain employment on the site.

Our services

On this project we supplied various trades on a compliant solution including the following;

General Labour	✓
Welfare	✓
Traffic Marshalls	✓
Demolition Operatives	✓
Machine Operatives	✓
Site Supervision	✓

Land Securities want to play a significant role in creating training and employment opportunities across London.

Through this employment strategy, and as part of the partnership, Deploy, ASSL & The Princes Trust offer unemployed local London residents the opportunity for advice & guidance, training and development and a chance to get on site work experience.

Working under the control of Erith, the operatives supplied to Kingsgate house enjoyed their first taste of construction and were successful in being offered employment through Deploy CIC.

The success was recognised by a site visit from David Cameron.
