

FACILITIES HARD SERVICES

Hard Services is an area where assessment of the initial requirement is key. Specifying the wrong equipment or opting for the wrong contractor can often result in substantial loss.

At Deploy UK we have a team of Consultants with over 25 years of experience of recruiting Hard Services Management personnel be it with In house organisation's or service providers.

We are able to identify professionals that have the relevant technical expertise coupled with the financial acumen that most employers look for in today's marketplace along with the right behavioral characteristics to ensure contractual and internal personnel development.

Deploy UK have an experienced team in place to deliver your requirements and as an example you may have a requirement for a Manager with essential electrical services experience including UPS, generator systems, clean supplies (and earth), power factor correction, all LV sub- main services or maybe you need a Manager with experience of setting up maintenance regimes, reactive, call-out response processes, disaster recovery strategy, auditing and monitoring.

Or you may have a requirement for a Project Manager with OPEX or CAPEX experience, project co-ordination and delivery within office space, datacentres with exposure to validation and co-ordination of all construction related projects along with working with M&E consultants along with the development of tender specifications and technical briefs for all project works to CDM standard then M8 Recruitment are the right choice to assist you.

Deploy UK have a vast database of Hard Service professionals and a proven track record in supplying the following personnel to in house organisations and service providers:

FACILITIES SOFT SERVICES

Soft Services is a term used for a variety of Facilities Management support services, such as Front of House, Reception, Post Room, Cleaning, Catering, Grounds Maintenance and Security.

Deploy UK have supported In-House and Service Provider organisations with specialist support staff within both the Public and Private sectors for a number of years, and continue to do so through our highly trained and knowledgeable Consultants, who either come from within the FM industry itself or have many years' experience recruiting in this field.

All of our consultants have extensive knowledge, and are passionate about the Soft Services Industry, constantly keeping abreast of the industry by attending industry events including BIFM, YMF, FMA and Rising FM's events.

We specialise in Permanent, Contract and Interim positions across all sectors of Soft Services, priding ourselves on a streamlined consultation process which is delivered to both clients and candidates alike.

Before candidates are presented to clients, they are interviewed face to face to identify their suitability, skill sets and strengths, ensuring the best possible candidate fit, not only regarding experience but also personality for each and every position.
